At Tint World®, we understand that many of our franchisees are new to not only franchising, but Tint World® as well. That's why, since we first started franchising in 2007, we've spent the past decade developing and perfecting our Superior Support System. Tint World® provides all the tools to be successful and a top-notch support staff to come in and help you. With experts in Real Estate, Construction, and Training to Purchasing, Distribution, Marketing, and Operations at our Headquarters in Boca Raton, FL, the support you want and need is always just a phone call away.

I chose to join the Tint World® family and become owner of the Pittsburgh location after seeing the massive success the franchisees are having and learning about the dedication that the Tint World® corporate team has for the store owners to thrive. I went from an independent mobile shop to building a relationship with the Tint World® brand to becoming the owner of the Pittsburgh, PA location. The knowledge and support of the corporate team and fellow franchise owners is simply amazing! I'm looking forward to rapid growth in the years to come! Thanks are not enough!!

Brandon Blume, Store 033

The marketing department of Tint World® is amazing. I have an automotive accessory background and I prefer to be part of the franchise system because they do it for me at my stores. It is a huge added value to what they offer.

Danny Rios, Store 046

Here's how our **ONGOING SUPPORT** distinguishes us from other franchisors:

Real Estate: Each new Tint World® location is carefully determined between the franchisee, the Tint World® Headquarters Team, and our preferred real estate brokers who specialize in Tint World® location placement. The franchisee is ultimately responsible for selecting and securing a site, but Tint World® assists with negotiating a lease, and building out the Tint World® Center. With that being said, our franchise and real-estate development team will be available to support and guide you every step of the way.

Construction: Tint World® takes a hands-on approach during the construction process for every franchisee. Our vast network of approved vendors, architects, and general contractors is essential to the success of the development process.

Training: Many brands charge training fees, we don't. Tint World® University three-week training program covers all the necessary skills needed in becoming a successful business owner. The first two weeks are spent in a classroom, where we train our franchisees on the Tint World® Culture, Marketing, Recruiting, and Financial Management of the Business. The third week of training is spent at one of our Tint World® Centers, where you will learn about Sales, Inventory, Scheduling, Team Development, and how to service your customers.

Purchasing & Distribution: Tint World® franchisees benefit from our national purchasing power, and our partnership with Tint World®'s industry's leading distribution network. This ensures nationwide distribution of delivery consistency and quality products.

Operations: Tint World® franchise business operations managers assist franchisee's in grand openings, staff training, and ensure the store is fully prepared and ready for their first customer. Tint World® operations managers call and visit Tint World® on a regular basis to conduct field operations excellence evaluations, answer questions and give support to owners, managers and/or crew members.

Marketing: Tint World®'s marketing team supports every franchisee with effective and innovating marketing initiatives, at the local and national levels. This assistance is provided to help you with your grand opening plans and social media presence, along with the implementation of new product launches. An in-house public relations team keeps Tint World® top-of-mind, with local and national media.

Financing: While Tint World® does not offer financing, we do have relationships with a Network of Lenders. These lenders work with you in securing the necessary loan you'll need to build your Tint World®. Tint World® is also on the SBA Franchise Registry, that provides a more streamlined application process for you.

TINT WORLD® 6-STEP FRANCHISE OWNERSHIP PROCESS

Tint World® gets you on the fast track to business success with our straightforward 6-Step Franchise Ownership Process. Upon completion of our 6-Step Process, you'll be on your way to enjoying a profitable business operation in your own Tint World® franchise. You'll own your own business, and enjoy continuing Tint World® support.

Tint World® provides lasting success to our franchisees, and we'll help you every step of the way.

STEP 1

Candidate Approval Process

The first step to becoming a Tint World® franchisee is through our candidate approval process. Once you submit the general information form, our straightforward approval process begins with a short phone interview with a franchise development representative. This is to learn more about you, your goals, and your business experience.

Next you will receive a Franchise Disclosure Document (FDD) which outlines everything you get as a Tint World® franchise owner. This document covers everything from product displays to marketing materials and equipment, so you know exactly what you're getting with your investment.

STEP 2

Tint World® Discovery Day

At your Tint World® Discovery Day, you'll get a comprehensive, hands-on tour of a functioning Tint World® center so you can see exactly what it's like to run a Tint World® franchise. You'll get a full walk-through of daily operations and procedures, and meet the Tint World® support team as well as franchise CEO, Charles J. Bonfiglio.

STEP 3

Franchise Licensing Process

Our professional development staff will help you through the entire licensing process and paperwork, and answer any questions you may have. By the end of the licensing process, you'll be the owner of your new Tint World® franchise.

STEP 4

Franchise Development Process

After all the paperwork is complete, we can get to work opening your own Tint World® auto styling center. We help take care of everything from location selection and development to startup and grand opening. Once a Tint World® location is secured, it typically takes 30-90 days to remodel your site and open your Tint World® styling center.

STEP 5

Tint World® Complete Training Program

Leading up to your store's completion, you will participate in our Tint World® Complete Training Program. As outlined on the previous page, this includes extensive classroom and in-store training so you can be confident and prepared to run a successful Tint World® franchise.

STEP 6

Franchise Ownership **GRAND OPENING**

Once your Tint World® store and training are complete, we'll walk you through setup, hiring, and procedures of running your business until you're comfortable with our proven business system for success. To help promote your new business, Tint World® will help you host a full-day grand opening event to attract customers and celebrate the opening of your new Tint World® store.
